Mare care is available at the above address for those wishing to transport their mare for reproductive on site services. Please call the above number to arrange for available boarding dates. Space is very limited so please book early if you will be transporting your mare to Cornell University. The fee per collection for 2004 is \$166 payable to Cornell University. Credit card payment is accepted for collection and shipping fees.

Credit Card Authorization: I _____ authorize Cornell University to charge my credit card # _____ exp. date _____ for collection fees as stated above and shipping fees if FedEx Acct # is not provided above. I also agree to return the equitainer to Cornell University by two day delivery service within one business day after breeding the mare. I accept that Cornell University will charge a late fee of \$20 per day if the equitainer is not returned according to this agreement.

Signature of Card Holder

1. A \$ 500 stud fee must be returned with this contract by check, money order or authorization to charge credit card. The stallion owner's agent (Cornell University) will make shipping arrangements. The mare owner is responsible for all veterinary charges related to breeding and pregnancy of the mare.

2. If said mare is determined to not be pregnant, the stallion owner will make additional shipments in accordance with the conditions of this contract during the breeding season ending August 15, 2004, collection and shipping fees will apply for each shipment. Should the said mare not produce a live foal (stands and nurses) the mare owner shall be entitled to one return breeding season. A statement of the details of the foal's death by a licensed veterinarian must be provided to the stallion owner within ten days or the guarantee becomes null and void.

3. All parties agree that semen shipped under this contract is to be used for said mare only, or a

substitute mare as provided for under this contract.

4. The mare owner certifies that the designated veterinarian practices reproduction as a regular part of his/her practice and is available for palpation, cultures, A.I., and other necessary procedures, and has consented to oversee the breeding of said mare on a regular basis. Veterinarian will:

- a) Examine said mare and certify that the mare is apparently free of infection and is in good breeding condition.
- b) Will examine said mare for pregnancy at appropriate time and report results to stallion owner.
- c) If said mare fails to conceive after two cycles will perform uterine cultures to be processed by a certified laboratory.
- d) Failure to conform to the above will nullify all guarantees and no further semen will be shipped.

5. The stallion owner assumes responsibility only to deliver live semen in viable condition at the time of delivery to the mare owner. Should the mare not settle after three cycles, the mare owner shall have the right to substitute a different owned mare, qualified under all the provisions of this contract.

6. Mare owner shall assume all responsibility for the condition of said mare and shall bear all risk of loss or damage to her whether by death, disease, injury, infection or by any cause whatsoever, and therefore agrees to hold the stallion owner harmless for any and all damages associated therewith.

7. Mare owner understands that both said mare and resulting foal must be DNA typed by AMHA prior to registration of foal, and any foal conceived in any manner not complying with this contract will not be eligible for registration.

8. Should the above named stallion or mare die or become unfit for service before the conditions of this agreement are met, this contract will be renegotiated.

I, _____, the undersigned, agree to the stipulations of this contract.
